

This is Thea.

They enjoy **practical**, **creative** subjects at school, such as textiles, because they prefer to learn and explore ideas through **workshops and practical lessons.**

Thea finds exams quite stressful, so would like to to avoid courses which are assessed entirely on exams.

- Imagine you are a Careers Advisor, think about what advice you would give to Thea about their future education.
- What careers do you think are practical and creative?
- Think about the Post-16 qualifications we've spoken about. What would suit Thea?

This is Sarah.

She is predicted good grades in **Science**, but also enjoys **Music** and **Maths**.

She wants to choose subjects she is good at after GCSEs, but would like to keep studying music for fun as well. She is concerned that studying nothing but sciences will be overwhelming.

Sarah is interested in a career in **Science** but is unsure which area she would like to focus on

- Imagine you are a Careers Advisor, think about what advice you would give to Sarah about her future education.
- What scientific careers do you think she could pursue?
- Think about the Post-16 qualifications we've spoken about. What would suit Sarah?

This is Tom.

Tom is a budding **entrepreneur** and has already set up a small business.

He doesn't want to go to sixth form or college after Year 11 as he is already earning a bit of money, but his teacher has advised him to learn more about his **finances** so he doesn't get into legal trouble in the future.

Tom wants to make sure that whatever option he chooses leads towards a successful **business career**.

- Imagine you are a Careers Advisor, think about what advice you would give to Tom about his future education.
- What education do you think would help Tom create a successful business?
- Think about the Post-16 qualifications we've spoken about. What would suit Tom?

This is Nadia.

She is doing well in subjects she enjoys, but is concerned that she won't get high enough grades in **Maths and English** to go to sixth form.

Nadia works very hard at subjects she is interested in, such as **PE, Graphics and Design**.

She would like to be an **architect** and is considering university, but also wants to keep her options open as she is less academically confident.

- Imagine you are a Careers Advisor, think about what advice you would give to Nadia about her future education.
- What careers could she explore around Design or PE??
- Think about the Post-16 qualifications we've spoken about. What would suit Nadia?
